Farheen Khan

Contact: +1(289)688-9098

Location: Toronto

LinkedIn: www.linkedin.com/in/farheenkhan78666

Email: farheenk3232@gmail.com

Professional Summary:

- Skilled developer with around 8 years of experience in designing, developing, and maintaining web-based applications using modern frameworks like React.js.
- Expertise in developing responsive web applications using JavaScript (ES6+), TypeScript, HTML5, CSS3,PHP and modern libraries like React, Redux, Vue and Angular.
- Proficient in creating high-performance, cross-browser compatible applications using React.js with a focus on code scalability and maintainability.
- Hands-on experience with responsive design, utilizing frameworks like Bootstrap, CSS Grid, and Flexbox for cross-device compatibility.
- Adept in integrating RESTful APIs and managing asynchronous operations using AJAX, Axios, and Fetch.
- Familiar with writing and maintaining CSS with preprocessors like SASS and LESS, ensuring fluid and adaptive design across multiple devices.
- Experience in unit testing with tools like Jest, Enzyme, and React Testing Library, as well as maintaining code quality through CI/CD pipelines using Git and GitHub.
- Good knowledge of databases, including writing SQL Queries, Triggers, and Stored Procedures for data management.
- Expertise in working with Drupal and designing tools like Figma etc.
- Skilled in applying SEO best practices, performance optimizations, and accessibility standards (WCAG 2.0).
- Strong understanding of Agile development methodologies, with active participation in sprint planning, daily stand-ups, and retrospectives.
- Self-motivated and collaborative team player with excellent communication and analytical skills

Education:

Bachelor's in information technology from Government Women Engineering College Ajmer, Rajasthan, India(2015-2019)

Professional Experience:

Client: Intuit

Role: Software Engineer

Duration: December 2025 - Present

Responsibilities:

- Developed and maintained scalable full-stack applications using React, and PHP.
- Built reusable UI components and contributed to backend services to support feature development end-to-end
- Designed and implemented RESTful APIs, handling data processing, validation, and integration with frontend
- Managed state and optimized data flow between client and server for performance and reliability
- Collaborated with cross-functional teams (product, design, backend, QA) to deliver high-impact features
- Improved application performance by optimizing both frontend rendering and backend response times
- Participated in Agile/Scrum ceremonies and contributed to sprint planning and technical discussions
- Wrote unit and integration tests (Jest / backend testing) to ensure code quality and system stability
- Reviewed code across frontend and backend, ensuring best practices and clean architecture
- Debugged and resolved production issues across the stack, minimizing downtime
- Contributed to system design discussions and improved overall application architecture

Skills/Tools:

React JS, Redux Toolkit, Node.js, Express.js, Azure, Material UI, HTML5, CSS3, ES6+, Jest, Figma,Jest, React Testing Library, and Cypress,PHP.

Client: HitchLine

Role: Software Engineer

Duration: December 2024 - December 2025

Responsibilities:

- Lead development of scalable, high-quality front-end applications using React, TypeScript, JavaScript, and modern UI frameworks.
- Translate Figma/UI designs into responsive, pixel-perfect interfaces while ensuring WCAG accessibility compliance.
- Integrate REST and GraphQL APIs with efficient data-fetching, caching, and state management (Redux Toolkit / TanStack Query).
- Optimize front-end performance through code-splitting, lazy loading, and bundle size reduction to improve Core Web Vitals.
- Implement and maintain automated testing suites using Jest, React Testing Library, and Cypress.
- Conduct code reviews, mentor junior developers, and provide technical guidance to uplift team quality and productivity.
- Collaborate closely with Product, UX, QA, and Backend teams to deliver high-impact features and ensure successful release cycles.

Skills/Tools:

React JS, TypeScript, GraphQL, Redux Toolkit, Node.js, Express.js, Docker, Kubernetes, Azure, Material UI, HTML5, CSS3, ES6+, Jest, Figma,Jest, React Testing Library, and Cypress.

Company: IBM, India

Role: Web Developer

Client: Arla Foods, Denmark

Duration: August 2021 – December 2024

Responsibilities:

- Developed and maintained responsive web applications using modern technologies such as HTML5, CSS3, JavaScript (ES6+), and Material UI.
- Collaborated with cross-functional teams, including designers, back-end developers, and product managers, to deliver high-quality web solutions.
- Implemented RESTful APIs and integrated third-party services to enhance the functionality and performance of web applications.
- Led front-end development for multiple key projects, optimizing code for better performance and user experience.
- Utilized Git for version control and managed code deployment through CI/CD pipelines.
- Worked closely with QA teams to debug and resolve issues, ensuring smooth and timely project releases.
- Participated in agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, to continuously improve development processes.
- Developed interactive UI components and customized web pages according to specific client requirements, enhancing user engagement and responsiveness.

Skills/Tools:
TypeScript, Redux, React.js, HTML5, CSS3, ES6, Node.js, Angular, Material UI, Express.js, React Hooks, JavaScript, Vue,Next.js

Company: FCS Infotech, India

Role: Full Stack Engineer

Duration: (May 2018 – July 2021)

Responsibilities:

- Developed and maintained dynamic front-end applications using React.js, HTML5, CSS3, and JavaScript (ES6+).
- Develop, maintain, and enhance web applications using PHP, MySQL, and MVC frameworks.
- Collaborated with back-end developers to integrate RESTful APIs, ensuring seamless user experiences.
- Participated in Agile development cycles, including sprints, daily stand-ups, and sprint retrospectives.

- Implemented responsive designs for cross-device compatibility using CSS Grid, Flexbox, and media queries.
- Performed unit testing using modern tools such as Jest and React Testing Library to ensure functional consistency and smooth user experience.
- Optimized web application performance, improving page load speed and efficiency.
- Utilized Git for version control and managed deployments using CI/CD pipelines.
- Mentored junior developers and provided troubleshooting and debugging support.

Skills/Tools:
React.js, RESTful APIs, JavaScript (ES6+), JSON , HTML5, CSS3, Bootstrap, Git, CI/ACD pipelines, Jest, React Testing Library, SQL,PHP.
